To: Heather Kirksey <hkirksey@linuxfoundation.org>, Philip Robb <probb@linuxfoundation.org>, vmb@juniper.net, alevine@progmaticlab.com, Stuart Mackie <wsmackie@juniper.net>, Cristina Pauna <cristina.pauna@enea.com>, alevine@juniper.net, Bin Hu <bh526r@att.com>, rbias@juniper.net

Thanks for attending today's meeting.

Attendees:

- David McBride (LF)
- Bin Hu (AT&T)
- Stuart Mackie (Juniper)
- Alex Levine (Juniper)
- Cristina Pauna (ENEA)
- Vickie Brasseur (Juniper)

Notes:

1. For the OPNFV Hunter release, Alex plans to integrate with Apex and to pass deployment and basic health / sanity tests.
 - Discussions with Tim Rozet have already begun.
 - Alex will keep David in the loop to track integration progress.
 - TF team understands that TF will need to take responsibility for installer integration.
2. Stuart will step down as PTL of the OVNO project, then hold an election (via email) for a new PTL.
3. Stuart, or new PTL, will update committer / contributor list.
4. Eventually, the new PTL will propose a name change to the OPNFV TSC, but this is not a high priority.

If you notice any errors or omissions, please respond to this email with your corrections.

David
