 - Installation (getting started)
 - OPNFV components (user & config)
 - Release notes
- Testing Frameworks
 - Testing Users guides
 - Testing Developers guides
- Developer
 - Documentation guide
- Infrastructure
 - Infrastructure overview
 - Continuous Integration (CI)
 - Cross Community Continuous Integration (XCI)

Please note that this is meant as an interim step moving towards the merge with CNTT. By restructuring, removing outdated content and refining the documentation guide we facilitate upcoming steps.

Requirements/Resources needed

- Project representatives to review templates (remove old references such as scenarios, any changes or clarification needed etc.)
- Doc guide refinement (doc project?)
