Project: NFV Hypervisors-KVM

- [Project proposal](#)
- **Etherpad:** <https://etherpad.opnfv.org/p/nfv-kvm>
- **TSC project proposal approval:**

Description

The NFV hypervisors provide crucial functionality in the NFV Infrastructure (NFVI). The existing hypervisors, however, are not necessarily designed or targeted to meet the requirements for the NFVI, and we need to make collaborative efforts toward enabling the NFV features.
