Vswitchperf Patch Submission

1. Start
2. Create a JIRA ticket for your testcase/patch
3. Pull the vswitchperf latest master
4. Make modifications, commit changes and make sure the JIRA issue number is in the commit message.
5. Push patch to gerrit for review
6. If +1 from a commit in another company, push patch to master
7. Rework and re-submit patch
8. End
