

# Askbot

[ask.opnfv.org](http://ask.opnfv.org) has been shut down. If you have questions related to OPNFV or need support with using one of the installers, please do one of the following:

1. Send an email to the [opnfv-users](#) list
2. Create a StackOverflow post using the tag **[opnfv]**

Since there aren't many questions in StackOverflow yet, you may want to follow up with an email to [opnfv-users](#) requesting a response.

3. Ask your question on IRC in [#opnfv](#) on Freenode.net

Make sure to stick around, or list your email so someone answer can get a hold of you.  
IRC is an ephemeral chat protocol and you won't be able to see a response if you aren't always connected.
