OPNFV

OPNFV founded a revolution - the revolution continues under a new name: Anuket (ah-NEW-ket) - Follow me on this journey

Welcome to the OPNFV Wiki

Open Platform for NFV (OPNFV) facilitates the development and evolution of NFV components across various open source ecosystems. Through system level integration, deployment and testing, OPNFV creates a reference NFV platform to accelerate the transformation of enterprise and service provider networks. Participation is open to anyone, whether you are an employee of a member company or just passionate about network transformation.

OPNFV Release Architecture

Get Started

- OPNFV on-boarding materials
- OPNFV documentation guide
- Stats for developer contributions
  - Bitergia Analytics Dashboard
  - Community gitstats
  - Stackalytics dashboard for OPNFV
- Quarterly Reports on OPNFV Technical Community (from Bitergia)

Software Releases

- OPNFV Releases Page

OPNFV Community Test Labs

- Find out more about OPNFV Community Test Labs at the Pharos project page (including how to obtain VPN access and obtain lab support)
OPNFV Projects

- Project ABC's page helps you understand how we run projects and coordinate our activities in OPNFV
- OPNFV Project Lifecycle page describes the project categories and lifecycle management
- Project Directory page lists all current projects that are approved by Technical Steering Committee
- Project Proposals page lists all newly proposed projects, which are pending community review and / or TSC approval
  - See the Project Proposal Template
  - See the Checklist for project proposal & creation review.
  - See the Project Wiki Page Template for creating your project wiki page once the proposal is approved by TSC
- Cross Collaboration Group
  - Security Group
- Archived Projects

Community

Committees, Work Streams and Meetings

- Technical Steering Committee (TSC)
- Technical Community Meetings
- Meetings Calendar

Working with upstream communities

Upstream community resource pages

Events

Technical Community Events Calendar

Linux Foundation Marketing Events Calendar (Networking Focused)

Other Resources

- Confluence Overview
- OPNFV trello page https://trello.com/opnfvdev <- See What is Trello for more info.
- OPNFV Infrastructure Status

You will need an Linux Foundation Account (https://identity.linuxfoundation.org/) if you would like to contribute to this wiki or the OPNFV Project

We recently migrated our wiki to Confluence. For a quick overview on Confluence, you can start here.
