Candidate S-release (1H'2025): Rivers of Australia

River Name	Wikipedia Link	Notes
Shoalhave n River	https://en.wikipedia.org/wiki /Shoalhaven_River	
Styx -Winner!	https://en.wikipedia.org/wiki /Styx_River_(Tasmania)	There are few candidates. I'd go for the one in Tasmania: it is the longest, the pictures are great and Tasmania is part of Australia.
	More pictures	Plus the mythological version of River Styx! No vote needed $\ensuremath{\mathfrak{C}}$
		Agree this is the perfect name!
